A doorway to knowledge

An open book becomes an entrance to the library, inviting readers to follow their curiosity and visit.

My contribution

Art direction and photo compositing
Concept development, copy and typography

Image production

AI-generated elements and stock imagery, with custom backgrounds, lighting and shadows.

Published social media campaign

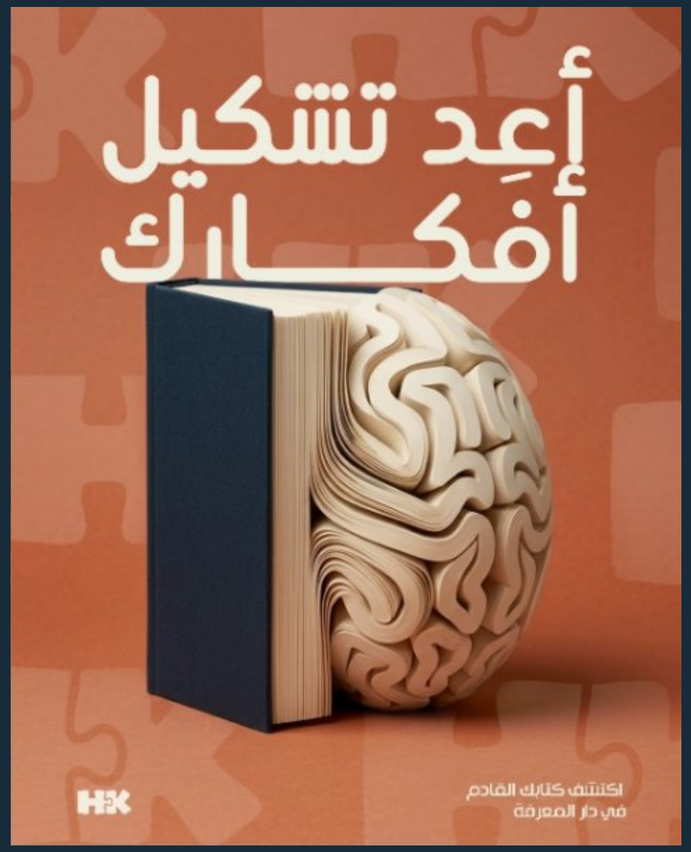

Campaign series

A shared palette and typography connect the campaign's different concepts.

Curiosity as a guide

A bookmark becomes a visual path.

Reading reshapes ideas

Book pages become a brain.

Knowledge in pieces

Each book adds to a larger picture.

EDITORIAL DESIGN

ATLAS

THE AI ECONOMY

Visual identity and complete editorial design for a magazine covering technology and innovation.

2024 / Client project / Sole designer

Typography and alignment

One hierarchy organizes the article and its imagery.

ATLAS

THE SEMICONDUCTOR RACE

Every artificial intelligence system depends on one fundamental resource: computation.

Semiconductors form the physical foundation of modern digital infrastructure, enabling everything from AI systems to global communication networks.

A small number of regions and companies control advanced chip manufacturing, creating a highly concentrated global supply chain.
